When you vote, shouldn't you be entitled to know whether a candidate is a Democrat or Republican? Or maybe a member of the Libertarian or Green Party?

Prop 14 abolishes the legal requirement that lets you know what party the candidates on the ballot represent.

It also prohibits write-in candidates in general elections. Only the top two vote getters advance to the general election—regardless of political party. So voters in some areas of the state will be choosing between two Democrats or two Republicans.

Prop. 14 reduces voter choice and is backed by Governor Schwarzenegger and his corporate supporters that want to elect candidates who won't stand up to them or fight for education funding and positive changes in our schools.

Equally important, Prop. 14 will add significant financial burdens on counties at a time when they are scrambling to make deep budget cuts.
